COMPOSITION

The performance should express a theme, emotion or story. The music, costumes, scenery, as well as the choreography should be used to enhance the theme.

Jumps and other figure skating elements should contribute to the choreography and need to have meaning within the theme. There is no limit to the number of jumps that may be done, however, jumps must have a meaning in relation to the theme and should not be gratuitous.

Solos, pairs or dance also need to have meaning within the theme. They can not be a dominant part of the performance. Highlighting and synchronized elements are not allowed.

The choreography should emphasize and support gliding. Stationary positions should be limited and excessive use be reflected in the marking accordingly.

All participants must wear their skates on the ice at all times. Dangerous props are not allowed.

COSTUMING

Costumes must be decent. Hair and ornaments must be secure. Costuming and make-up should enhance the feeling created by the performance.
